[Apply Now](#)

Company: Vectrus

Location: Kuwait

Category: other-general

Overview

*****This position is physically located in Kuwait in support of LOGCAP*****

The Container/Cargo Management System Technician (CMST) is responsible for assisting with day-to-day cargo and container operations. Employee must be Hazardous Materiel (HAZMAT) (AMMO 62) certified and have the ability to use and train employees on the Integrated Booking System ' Container Management Module (IBS -CMM), Joint Container Management (JCM), Global Transportation Network (GTN), Radio Frequency Identification (RFID) tags and Cargo Movement Operating System (CMOS). Must be capable of working independent in lieu of specific instructions to accomplish mission and enforce the importance of safety at all times.

Responsibilities

This position description is subject to change at any time as needed to meet the requirements of the program or company.

Utilize the Theater Automated-Container Management Module to IN/OUT Gate and Way point transiting.

Identify carrier owned containers and report to Movement Control Center (MCC), shipper, and Container Management Element (CME).

Identify containers with unresolved container ownership in IBS-CMM.

Communicate unresolved ownership issues with shipper, CME, and MCC.

Expedite the movement of throughput and high-priority container shipments.

Minimize the time for holding or consolidating cargo.

Maintain 100 percent in-transit visibility of containers and contents.

Achieve economical movements via container use.

Move containers as fast as mode operators and consignees can handle them.

Avoids container congestion in ports, staging areas, and container yard.

Integrate the military and commercial container management systems.

Consolidate single consignee shipments.

Ensure mode operators are responsive to the needs of consignees as well as container managers.

Reduce detention and demurrage.

Use containers for retrograde movements as much as possible without slowing down the system.

Perform and monitor movement control functions.

Perform other duties and assignments as required.

Qualifications

MINIMUM QUALIFICATIONS Education/Certifications: One year related experience may be substituted for one year of education, if degree is required. High school graduate or equivalent.

Experience: Three (3) years of related work experience.

Skills: Excellent computer, interpersonal, and oral and written communication skills required.

Computer skills include a working knowledge of Microsoft Word, Excel, Outlook and the IBS -CMM. Requires excellent organizational skills; with the ability to work under fast paced and adverse conditions. Collaborative work style fostering cooperation and teamwork. Ability to work effectively with employees and management of all levels to include multi-national staff, superiors, and ranking military officers. Ability to handle confidential company and employee information with complete discretion. Highly proficient in English, both verbally and written. Basic proficiency in Word, Excel, and Outlook applications. High-level organization and planning skills so workflow is managed efficiently and accurately. Ability to read, analyze, and interpret reports and documents. Knowledge of MHE equipment operation. Ability to understand and follow quality and safety procedures.
