Ability and willingness to travel often

[Read job description for more details](#)

Experienced and qualified Governess needed to join this lovely family to support and encourage education, healthy lifestyle, physical activities and emotional development.

The ideal candidate would have a background in teaching, with a strong background in maths or child psychology to help support their daughter with her learning and pre teen years!

During the school day the duties would include overseeing the nannies to make sure all of the child's needs are met, preparing a meal plan and making healthy snacks and organising her

activities and schedule. There will also be occasions in which they ask for some tutoring for their other daughter. After school they'd like the governess to focus on her education, making sure she has completed all her necessary tasks for the day and providing her with a positive role model. The family are based in Kuwait but also have a home in London they travel to throughout the year, the family holiday internationally also so a willingness and ability to travel often would be necessary. This is a great role for an experience Governess looking for their next role!
