

## Windows Server Specialist - Service Office

[Apply Now](#)

Company: Ikea

Location: Kuwait

Category: computer-and-mathematical

### Job description

The Windows Server Specialist, will be responsible for deploying, managing, and maintaining servers in a highly available environment. Will need to have experience with designing and implementing complex systems, along with a solid understanding of IT infrastructure principles. Should have a passion for solving problems and seek to identify and rectify any issues before they cause system downtime.

### Qualification

Bachelor's degree in Computer Science or related field

5+ years of experience with Windows Server administration and support

Expert-level knowledge of Active Directory, DNS, DHCP, and Group Policy

Experience managing highly available systems and disaster recovery scenarios.

Knowledge of virtualization technologies (Hyper-V or VMware)

Strong problem-solving and analytical skills

Excellent written and verbal communication skills

Ability to work independently and on a team and prioritize tasks in a fast-paced environment.
